- The Bangla Shoppers Database
- It is a simulated database of a skin & beauty care shop in Bangladesh.
- Website: <https://www.banglashoppers.com/>
- In addition to adding several different tables, I attempted to create a database using the data provided on this website.
- For security and confidentiality, data for customers, staff members, purchase and detailed transaction are not accessible on the internet.
- BanglaShoppers.com is a chain store that has been in business since 2013 and is situated in Bangladesh. They are an e-commerce business that sells anything from premium beauty products and fragrances to lifestyle goods, skincare products, hair care products, and some more.
